

## **Balancing Bird**

- 1. Cut along the thick lines
- 2. Fold **1** downwards along the dotted lines **----** and upwards along the dashed line **----**.
- 3. Tuck in and paste the edges of the wings.
- 4. Fold **2** downwards along the dotted line **———**. Paste it onto **①**.

Place th the tip or balance

l

2

Place the bird's beak at the tip of your finger and balance it.

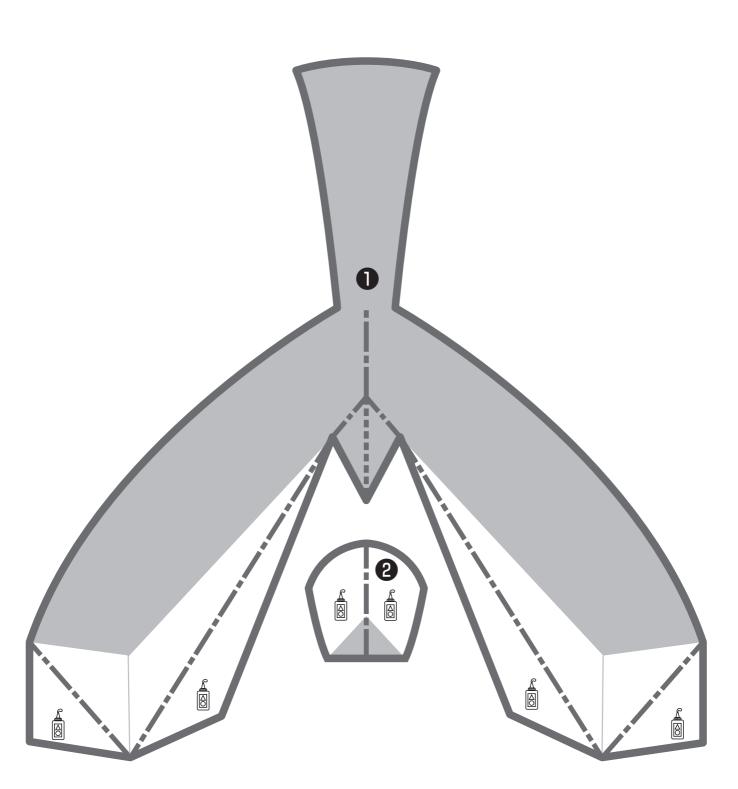

## **To parents** If your child has difficulty balancing the bird, adjust the angle of its beak.

\*Parents, please cut along this line for your child.
